

Natural Resources Management Programs

10. Monarch Butterfly Management Program

Goal: Facilitate Use of HMP Area for Monarchs

Policies: Implement HMP (Protect Trees, Monitor)

Long-Term Management (Adapt HMP)

Restoration (Plant Milkweed)

Avoid HMP Trail/Tree Work Oct thru March

11. Wildlife Habitat Management Program

Goal: Consider Multi-Species Management Approach

Policies: Improve Ecosystem Functions (Educate Staff & Contractors; Preserve Trees w/ Cavities)

Habitat Restoration (for Monarchs & Wildlife;
Restore Areas Adjacent to Groves)

Natural Resources Management Programs

12. Tree Management Program

Goal: Manage Eucalyptus Groves for Monarchs

Policies: Improve Tree Health
(Eliminate Pests; Cut “Leaners” Threatening
Healthy Trees)

Improve Sustainability of Grove
(Tree Mgmt. Prioritizes Viability of Monarch
Usage)

Improve Public Safety
(Remove Tree Fall Barriers on Trails)

Reduce Fire Risk
(Remove Deadwood etc.)

Natural Resources Management Programs

13. Integrated Pest Management Program

Goal: Control or Eradicate Monarch/Eucalyptus Pests

Policies: Inventory Pests & Disease (by Grove)

Manage Pests & Disease (Prioritize by Risk Level; Use Integrated Pest Mgmt. BMPs)

14. Habitat Enhancement & Restoration Program

Goal: Enhance & Restore to Preserve Monarch Habitat

Policies: Encourage Natives (Restore Damaged Areas with Native Plants)

Consider Grove Gaps (Plant Herbaceous Natives in Understory)

Devereux Creek (Improve Puddling Areas)

Habitat Enhancement (Coordinate with Other Ellwood Projects to Ensure Monarch Habitat is Priority)

Natural Resources Management Programs

15. Invasive Plant Management Program

Goal: Eradicate Invasive, Non-Native Plants

*Policies: Identify Invasives
(Prioritize Invasive Plant Removal Areas)*

Control Invasives
(Control High-Priority Invasives, then
Medium Priority, then Limited Priority
Invasives)

16. Ecosystem-Wide Management Coordination Program

Goal: Coordinate HMP with Other Ellwood Projects

*Policies: Coordinate HMP Programs
(Ensure HMP Actions are Internally
Consistent)*

Ensure Non-HMP Projects Support the HMP
(Make Recommendations Regarding Pest,
Fire, & Public Safety Mgmt. Proposals in
Non-HMP Areas)
