Legend		Tsunami Hazard		Other Features	
Flood Hazard	Fire Hazard Severity Zones	Tsunami Inundation Area		Goleta City Boundary	Source:
	State Responsibility Area			Coastal Zone	The fire hazard severity zones were obtained from the California Department of Forestry and Fire Protection Fire Hazard Severity Zones map dated 11/07/07. The 100 and 500 year flood zone was mapped by the Federal Emergency Management Agency (FEMA), per flood Insurance Rate Map (FIRM) dated September 30, 2005. The tsunami inundation area was modeled by the University of Southern California, funded through the California Emergency Management Agency by the National Tsunami Hazard Mitigation Program, and depicted on the Tsunami Map for Emergency Planning, Dos Pueblos Canyon and Goleta Quadrangles, dated 01/31/09.
	Moderate			Creeks	
	High			Schools	
	Very High
