

**Agenda Item C.1
DISCUSSION/ACTION ITEM
Meeting Date: April 1, 2008**

TO: Mayor and Councilmembers
FROM: Daniel Singer, City Manager
SUBJECT: UCSB Long Range Development Plan Presentation

RECOMMENDATION:

Receive a presentation from the University of California Santa Barbara (UCSB), on their Long Range Development Plan, corresponding Environmental Impact Report, and related matters.

BACKGROUND:

Last week, UCSB released their long-anticipated Long Range Development Plan (LRDP) and draft Environmental Impact Report (both of which are available for viewing on line or on disc format). Staff will begin their review of these documents over the next 4-6 weeks and will coordinate subsequent discussions with the Council's Town & Gown Committee and the University.

To kick off the launch of these documents the University has agreed to provide the City Council with a brief presentation on the LRDP and the adoption process. Vice Chancellors Gene Lucas and John Weiman will be present and available to respond to the Council's questions.

No action by the Council is required or requested at this time.
