
CLEANUP SAFETY

Please stick to sidewalks when conducting cleanups in neighborhoods, and stick to City property when doing cleanups in parks or open spaces!

- **Do not trespass onto private property or conduct cleanup activities in streets and roads.**
- **Do not direct or interfere with traffic.**

VOLUNTEER SAFETY COMES FIRST!

- Follow CDC and County guidelines for masks and social distancing protocols.
- WATCH YOUR STEP! The most common cause of outdoor injuries are slips, trips, and falls.
- Wear sun protective clothing and use sunscreen if possible.
- Bring water - stay hydrated!
- Wear personal protective equipment (PPE) such as gloves, sturdy closed-toe shoes, and any other PPE needed for hazards in your cleanup area.
- Use situational awareness - be aware of your surroundings and all potential hazards associated with them (like moving cars, poison ivy, tides, and uneven ground).
- Use the buddy system - work in teams of at least two.
- Children must always have adult supervision.

KEEP THE ENVIRONMENT SAFE TOO!

Flowers, grass, and trees are sensitive. Please stay on walkways and trails.

Wildlife is best kept wild. Do not approach wild animals.

WHAT TO REMOVE

Trash and Litter
(tiny to large, anything
created by humans)

Recyclables

WHAT TO LEAVE

Encampments (notify the event coordinator)

Hazardous materials (notify the event coordinator)

- Dead animals
