

**City of Goleta
Candidate Statement and Ballot Designation
Goleta City Councilmember, District 1
November 2022**

**ROGER S. ACEVES
Ballot Designation: Incumbent**

In my sixteen years on the Council, three issues have come up repeatedly, roadway conditions, park maintenance and recreational opportunities, and public safety, both police and fire protection. I will continue to address these issues with the high standard of constituency service I have maintained. I provide my contact information, and I follow up to see if you have been helped. I have served on almost every Council committee and have not missed a single Council meeting.

My focus has been on citywide issues, but now with District elections the interests and concerns of my neighbors in the First District will become my primary focus. I will listen and respond to the many issues in our district that are of particular concern and interest, understanding that the well-being of the entire city must be taken into consideration.

As a member of this council, I have always focused on acting in a fiscally responsible manner, and that is why I am opposed the pending ballot measure asking for a 1% sales tax increase, especially given the current economic challenges. Just as you prioritize your spending so should the City of Goleta.

Please vote to re-elect me to City Council.
