As a Goleta resident, I am writing in support of high density housing at Kenwood Village site. It seems like a good spot for higher density urban infill being that it is surrounded on 3 sides by dense housing and fronts Calle Real and the freeway on the other side. We do need workforce housing in Goleta and it should be accommodated somewhere. I urge you to support and approve housing at the Kenwood Village location.

Sincerely,  
Kipp Young
