Subject: I support high density housing at Kenwood Village

To Goleta City Council,

I am writing to express my support for high density housing at the Kenwood Village site. It's the perfect infill property as it is surrounded on 3 sides by dense housing and fronts Calle Real and the freeway on the other side. We need workforce housing in Goleta and this is a perfect site to accommodate some of these units. Please support the approval of housing at the Kenwood Village location.

Thank you,
Max Tyler
