I'm writing to you today because of the proposed building at the Calusa Avenue property. I live across the street, this is the traffic at 3:50 PM today Wednesday September 6th. I am trying to attach photos, but this website won't allow it. I sat through 3 lights trying to get to the stop sign at the end of Del Norte to make a right on Glen Annie. Calusa Ave and Del Norte connect. The traffic is already horrendous, please don't make a bad situation worse. For the school kids on foot and the vehicles already here is dangerous. If you add more people, cars and congestion to this area it would be disastrous for our neighborhood.

Please please please find another location.

If you are interested in seeing the pictures please email me back and I will attach them.

Thank you for your attention to my concerns and your commitment to our community to provide safe and smart building decisions.

Calusa Avenue area is way too small for that many units and will destroy the integrity of our single home community. It is a really busy roadway and just not a good place to add more traffic. Thank you again,

Michele Owen
