Honorable Mayor & City Council,
I want to emphasize to please keep the 100 ft setback to creeks.
Allow no amendments or revisions to the 100 feet the City Council established. It's so little to ask for the wildlife that has been there for many more years than we humans.

Please remember the birds, lizards, rabbits and other creatures big & little that depend on the creeks and the living canopy covering the creek sides or the mud banks for the swallows.
Appreciate the opportunity to be heard. As an Audubon member - local & national - I believe I speak for all who love nature in Goleta.
Thank you.
