	Eucalyptus Woodland		Native Upland Woodland/Savannah		Coastal Zone
					Future Service Area Boundary
					Creeks
					Schools

Other Features

	Goleta City Boundary
	Coastal Zone
	Future Service Area Boundary
	Creeks
	Schools

Sources: Habitat mapping conducted by Jones & Stokes in April-May 2006 based on aerial imagery (1-foot resolution) and field observation, merged with 1) information collected by City from recent survey information from local environmental review departments; 2) mapping of creeks, ponds, lakes, and reservoir location based on USGS topographic maps; and 3) field surveys and mapping conducted for the Ellwood-Devereux Coast Open Space and Habitat Management Plan (2004).

Note: The locations of special status habitats and species are approximate. Other special status habitats and species may occur in the City and Service Areas.
