## **MEDIA ADVISORY**

**[Goleta, CA]** The City of Goleta and Caltrans have scheduled a ceremony to mark the completion of the Los Carneros Interchange Landscaping Project.

The Los Carneros Road Interchange is considered to be the gateway to Goleta. For years, this area was devoid of landscaping with just weeds and a few scattered trees. With the new landscaping project complete and a remote water irrigation system in place, California sycamores, toyon, Manzanita, deer grass and other native plants will grow and beautify the interchange.
