**AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF
GOLETA AMENDING TITLE 10 CHAPTER 10.01 TO ADD
PARKING RESTRICTIONS FOR CERTAIN LARGE VEHICLES
AND TRAILERS ON CITY STREETS**

WHEREAS Title 10 of the Goleta Municipal Code sets forth the requirements, restrictions and penalties for parking vehicles in the City of Goleta; and

WHEREAS the requirements, restrictions and penalties for parking vehicles are set forth in the municipal code to ensure the health, safety and welfare of the public; and

WHEREAS the long-term parking of large vehicles and trailers on city streets presents an on-going safety hazard to pedestrians, motorists and cyclists due to limiting sight-distance at driveways and intersections, presenting potential conflicts between vehicles on the roadway and pedestrians, motorists, and cyclists entering or crossing that roadway; and

WHEREAS the parking of large vehicles and trailers on city streets may impede the access of emergency response vehicles; and

WHEREAS the Goleta Police Department and Community Services Department receive a significant number of traffic complaints from residents involving the long-term parking of large vehicles and trailers on city streets; and

WHEREAS large vehicles and trailers, especially recreational vehicles, hold large quantities of gasoline and propane, thus posing a potentially highly volatile fire hazard; and

WHEREAS detached trailers parked on the street constitute a safety hazard as they are not required to have an independent braking system; and

WHEREAS the negative aesthetic impacts of large parked vehicles and trailers, increased noise and noxious gases emitted from parked vehicle generators and engines, and odors emanating from engines and sewage holding tanks in some parked large vehicles and trailers detracts from the quality of life of city residents; and

WHEREAS owners of large vehicles and trailers should have the opportunity to have limited use of city streets for short periods of time to accomplish specific purposes; and

WHEREAS current regulations are inadequate to address the impacts created by parking large vehicles and trailers on city streets.
